### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

*Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-24 and 41-48, drawn to a method for managing charging and billing for services, classified in class 705, subclass 29.
  - II. Claims 25-32, drawn to a system for facilitating, classified in class 709, subclass 223.
  - III. Claim 33-34, drawn to a bridging apparatus, classified in class 707, subclass 100.
  - IV. Claims 35-39, drawn to a system for charging, classified in class 709, subclass 220.
  - V. Claim 40, drawn to a computer readable medium, classified in class 380, subclass 30.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Groups II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process can be practiced by hand.

3. Inventions Groups III and Group IV, V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group III has separate utility such as a network for selling machine parts. See MPEP § 806.05(d).

Art Unit: 3627

4. Inventions Group IV and Group V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group V has separate utility such as a medium for inventory management for computer parts. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II, III, IV or V, restriction for examination purposes as indicated is proper.

7. A telephone call was made to Mr. Steven Funk (Reg. No. 37,830) on or about March 26, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant's Information Disclosure Statement has been received and will be reviewed in due course.

Art Unit: 3627
